

Enterprise Solutions

Supporting Major Information Technology Systems from Network Design to Integration, Installation, Sustainment and Administration

VT Group consistently combines innovation with effective operations and efficient processes to major information technology system programs, from network design to integration, installation and administration.

Integrated Solutions Expertise

Our teams of specialists have vast experience creating and supporting local area networks (LANs), base area networks (BANs) and metropolitan area networks (MANs) with links to existing wide area networks (WANs), Voice over Internet Protocol (VoIP) systems and wireless networks. As needed, we can design, install and integrate a turnkey system, or assume responsibility for managing the assets. VT Group personnel have experience working on critical missions in high-security areas and sensitive systems worldwide.

As Your Partner

We combine decades of experience in integrated IT solutions with our commitment to integrity and excellence to deliver exceptional C4IT networks with high availability and reliability.

VT Group is consistently recognized as an innovative, rapid-response, customer-centric provider of IT solutions. We are ready to deploy across the globe to meet immediate customer needs and tackle their toughest challenges.

“I would like to extend my sincere appreciation for outstanding service in support of ONE-Net Infrastructure Installation/Migration Preparation to the entire team in support of our European wide theater... The attention to detail made the planning, preparation and execution of these migrations as painless as possible. The VT Group/ SPAWAR team’s continued support reflects on their outstanding ability to formulate successful solutions to problems encountered by using sound management skills, initiative and teamwork.”

— CIT Dept. Head,
Commander Navy Region
Europe

By aligning our services with our customers' core activities, we have a direct impact on performance.

Enterprise Solutions

We go beyond basic IT infrastructure services, working with our clients to design, install, operate and maintain IT infrastructure to support critical operations—in all U.S. and overseas environments for the U.S. Navy, U.S. Army, U.S. Air Force, U.S. Coast Guard, U.S. Marines as well as other government agencies and commercial clients.
